

Latrobe Community Health Service

Volunteer Woodworking Assistant

- Do you enjoy woodworking projects
- Can spare a few hours a fortnight

Creative House offers day programs for adults with on-going psychiatric illness incorporating psycho-social, recreational, prevocational programs.

One of the activities which clients undertake is woodwork. Clients have the opportunity to work on a project that is of interest to them, whilst learning new skills – under the guidance of the staff and volunteers. The role of the Creative House Woodworking Assistant varies with the needs of the client – although at all times the emphasis is on maximising the involvement of the client.

This Volunteering Opportunity is located in the **3844** postcode.

Apply to this opportunity by clicking the "Express Interest" button below."
